

# Setting New Standards In Commercial Vehicle Conversions

[www.jamesalpe.co.uk](http://www.jamesalpe.co.uk)

improving performance

## Making those simple tasks just that little bit simpler...

James Alpe Vehicle Conversions are specialists in designing and installing all types of vehicle racking systems. Modular racking is the ideal way to drastically increase usable space in your commercial vehicle. Installing a modular racking system geared towards your trade or profession conveys a professional image whilst at the same time reducing time looking for tools, stock, spares, equipment etc.

With over 25 years experience in the automotive industry James Alpe have established a strong reputation for quality, reliability and service. We provide a complete design and installation service and can advise you on the best system for your occupation, trade or profession. We design adaptable, re-useable cost effective storage systems allowing tools and equipment to be stored safely and securely.

We are distributors for the leading racking manufacturer Sortimo and we work with both major fleets and single tradesmen to provide the best solution for the job. Products are all modular allowing any configuration in any type of vehicle.

“ You get the job done on time: your client is satisfied and your work in progress runs more smoothly. ”

# The genuine 'one-stop shop'

Previously, you may have used several different companies to deliver various aspects of your vehicle conversion solutions. Not anymore. James Alpe Vehicle Conversions can simplify your decision-making process by satisfying all of your requirements under one roof. Not only do we carry out conversions, we can supply all your commercial vehicle accessories including:

- **Tow Bars, Side Rails & Rear Steps**
- **Ladder Racks, Roof Racks & Pipe Tubes**
- **Lighting & Light Bars**
- **Hand Wash Systems**

When it comes to vehicle conversions, James Alpe is a genuine 'one-stop shop'. We do much more than merely convert vehicles, we provide a fully comprehensive range of solutions that will enhance the performance of your vehicles, and give you a competitive edge.

We fully understand that to ensure customer satisfaction a thoughtful, and sometimes complex, specification is required. We adopt a consultative approach during the design stages and work at a senior level to explore new design concepts. We also encourage clients to visit us onsite during the conversion work to monitor performance and discuss specification.

We strive to fulfil your brief in the most cost effective way and provide you with the best solution for your type of vehicle and trade. We have worked on an array of vehicles for many professions including catering vehicles, display trailers, recovery vehicles, plumbers, electricians, joiners, and many more.

**"As experts in our field, our aim is to be your vehicle conversion supplier of choice."**

vehicle solutions

single sourcing

## More than just a van conversion service ...

Of course, our capabilities aren't just limited to the basics of vehicle conversion. Beyond bespoke fabrication and modular fitments we can fulfil virtually any brief, no matter how complex, and offer an unparalleled list of optional extras and accessories.

You may use your vehicles for a wide range of purposes, or you may require a very specialist bespoke conversion. No matter what the job, James Alpe Vehicle Conversions will design, build and maintain a converted vehicle fit precisely for purpose.

We are able to custom convert vehicles that require specialist storage areas, wet areas, chilled compartments, storage for hazardous substances, as well as the likes of mess units, mini kitchens eating areas and refreshment/toilet facilities, for staff or even public/visitor use.

Heaters, lighting, microwaves, refrigerators, entertainment centres: the list is endless. When it comes to tools and equipment storage, our range of modular accessories, drawers, racking and holders is vast. We can even fit work benches inside your vehicle to keep your external work area tidy or to protect you and your equipment during bad weather.

Externally, we can fit any type of bespoke or modular roof racking, ladder storage and even custom built tail lifts. James Alpe Vehicle Conversions: the last word in single sourcing.

“ At James Alpe Vehicle Conversions there is no end to our capabilities. ”

## The conversion supplier of choice...

James Alpe is a major provider of vehicle conversions to various bodies within the Public Sector. We have undertaken bespoke projects for and built successful long-term relationships with United Utilities, the Ambulance Service and a variety of Police Constabularies and County Councils.

We repair, refurbish, maintain and convert a broad range of specialist Public Sector vehicles including Police Cell Vans, Dog Handling Vehicles, Underwater Search Vehicles, Ambulances, Specialist Utilities Vehicles and many more.

Our independent sign company, James Alpe Sign and Design complete our public sector service by carrying out all types of vehicle livery, particularly conspicuity livery for the emergency services. We have our own in-house digital design and printing facility and can comply with all Chapter Eight requirements.

We operate on our own private, securely gated 65,000 square foot premises in the North West and have our own fleet of recovery and delivery vehicles. Our internal and external policies and procedures comply with exacting operating standards one would expect from a major Public Sector supplier.

“ We are proud to be a preferred vehicle conversion service to the Public Sector. ”

Public Sector

commitment to quality

## Confidence, reliability, commitment...

Customer satisfaction is of paramount importance to us and our commitment to design innovation, through close liaison with clients and suppliers alike ensures that we are constantly improving the level of quality, safety and practicality of our vehicle conversions. We are proactive in offering constructive advice when considering specifications and cost effectiveness of conversions.

With 25 years combined experience and hundreds of specialist conversions under our belt, we feel justified in claiming to be experts in our field. From the sourcing of the highest quality supplies through to rigorous quality control procedures. All conversions are project managed for the duration of the conversion from initial delivery of the vehicle through to final inspection.

We have a team of highly experienced, multi-skilled employees across the various divisions of our company which ensures projects are finished to schedule, and estimated lead times are met.

We hold the industry standard PAS 125 Kitemark accreditation which guarantees our clients exacting standards in terms of workmanship, health & safety, quality and performance. Our internal state-of-the-art operating systems monitor both vehicles and staff performance at all stages of the conversion, again ensuring timely completion of work.

We build lasting client partnerships by adopting an project and account management approach and by excelling in every aspect of our work.

“ We constantly improve the level of quality, safety and practicality of our vehicle conversions. ”

## A fully comprehensive service

We remain ever committed to setting new standards in our sector and in maintaining what we believe are the benchmarks we set for our industry.

The James Alpe group of companies are all based in Clitheroe, Lancashire, close to the centre point of the UK and neighbouring the North West's industrial heartland.

When it comes to vehicle services, as a group we make single sourcing a reality and provide a genuine one-stop shop.

One of the major benefits to our vehicle conversion clients is our ability to provide vehicle livery services, for anything from a single vehicle to an entire fleet. Many clients, particularly in the Public Sector and emergency services, have been very impressed by the fleet livery capabilities of James Alpe Sign & Design, which is capable of delivering all aspects of commercial and business signage. We are able to reproduce organisations' branding and offer a complete vehicle graphic service, onsite, whilst undertaking conversion work.

In addition, we also boast extensive vehicle services facilities with our own state-of-the-art bodyshop for accident repair work. We also carry out servicing and MOT's, and can supply all makes of tyres. Our Vehicle Services division who will provide you with a courtesy vehicle to keep your organisation on the move and ensure that your requirements are handled from start to finish, minimising your downtime.

James Alpe Vehicle Conversions – your preferred supplier for specialist vehicle conversions.

// We are very proud of the level of experience and craftsmanship that our team offer. Our company is family owned, long established and has succeeded in a specialist industry by focusing on traditional business values and cutting edge technology in equal measure.

We welcome the opportunity to demonstrate how we can improve your organisational performance through intelligent vehicle conversions. //
